

REVOLVING WOOD SHUTTERS. Patent
AGENT, STREET AND 121, CHANCERY-LANE. Patent
Solicitors, 121, CHANCERY-LANE, LONDON, E.C. 4.
Instruments for Reversing Shutters of WOOD and IRON.
Mr. Methods of Raising and Lowering Shutters, without
and Two for Raising and Sheddling the Sides of Wood Laths
Iron.—The Patentee having fixed up some hundreds, will
be pleased in forwarding the Testimonials of Architects, Principals
of the Mechanicals, and others, having them now in use,
will guarantee the best, and most durable, and
superior to any other Revolving Shutter for durability, security
and simplicity, without the use of cog-wheels, gears, and
other machinery.
